

Aswin Sarang is an Entrepreneur, Life Coach, Designer, Alternative Medicine Practitioner, Drone Pilot & Robotics Engineer.

Based in the Middle East, Aswin is one of the region's youngest start-up entrepreneur turned investor, heading the robotics firm Reliable Robotics based in Dubai, as the Head of Robotics & AI at Reliable Robotics, Aswin focuses on driving the company's product vision, developing its long-term strategy, and cultivating relationships with strategic partners.

Aswin is a proud Dubai resident who is evangelical about entrepreneurship, culture, and anti-disciplinary thinking. Aswin is also a Life Coach & Mentor who focuses on what matters most across the three big life domains of – self, relationships, and work; and mentoring a whole of life balance so his clients can continue focusing on what matters most in the future.

After graduating with a mechatronics engineering degree, Aswin went on to pursue his career in Robotics that eventually led to having his own Robotics Startup that helped him pursue his other passion for life coaching and alternative medicine practices.

When not developing robots, Aswin's idea of time off is flying drones and track racing with his buddies.
